9:45 Work time - may be indoors and/or outside. The classroom is structured with shelves of nature, creative and academic activities, including Montessori materials. Children move freely in the space, choosing activities that are interesting and appropriate for their level of development. The teacher acts as a guide, introducing materials and assisting with interactions between children. Many days children start their day outside during this period, bringing activities outside, in unstructured play, or in a guided activity with a naturalist. Children eat snack when they are hungry during this period.
